MONEY, STOCKS AND BONDS.

Led by Gould and Vanderbilt Shares, the Market Beaches a State of Buoyancy. NEW YORK, Dec. 20 .- Money on call was close, ranging from 5 26 per cent., the last loan being made at 6 per cent., closing

offered at 5@6 per cent. Prime mercantile paper, 6@712 per cent. Sterling exchange quiet and steady at \$4.80% for sixty-days bills and \$4.8412 for

The total sales of stocks to-day were 304,919 shares, including the following. Atchison, 5,975; Canada Southern, 13,611; Delaware, Lackswanns & Western, 28,680; Lake Shore, 4,535; Louisville & Nashville, 3,900; Michigan Central, 4,553; Missouri Pacific, 61,457; Northwestern, 3,755; Northern Pacific preferred, 6,215; Reading, 24,400; St. Paul, 20,875; Texas Pacific, 4,666; Union Pacific, 13,690; Western Union, 3,410.

The stock market was more active and decidedly strong during the greater portion of the day, and, although realizing sagged the list off toward the close, several material advances were scored as the result of the day's trading. The temper of the market was rather reactionary at the opening, dullness and stagnation being the principal features, but the reports of the remaining Vanderbilt roads with the extra dividends soon set things going, and activity and buoyancy took the place of the Pacific, however, again led the market, and at its highest point it showed a net gain of 3 per cent. over its last night's tigure. The settlement with the Kansas & Texas upon s basis of mutual advantage was the impelling cause, although even it did not move until the news from the Grand Central depot was received. Those who pretend to know expect that a further advance will take place, and rumors of a settlement of the debt owed to some of the directors give color to the idea. The Vanderbilts were the conspicuous feature of the market, and Canada Southern especially displayed marked strength, though, like the others, all of the improve-ment could not be held at the close. The grangers also came to the front, and Bur-lington led the advance among them, and. with St. Paul, was more active than for some time. The coal stocks were sluggish, and considerable pressure was brought to bear upon them in the early dealings, re-sulting in a fractional decline, with Lackawanna leading. They became stronger with the rest of the list, however, and the early losses were wiped out. The upward movement met with considerable of a check when the money rates advanced, and during the afternoon money was up to 9 per cent., inducing realizations on a liberal

partment was quite neglected to-day. Sugar opened up 14 per cent., at 5934c, but retired to 581s, and thereafter fluctuated within those limits, becoming very dull in the afternoon. The market was quiet and rather heavy at the reaction. Almost the entire active list is higher to-night, and Jersey Central is up 134, Missouri Pacific 158, Burlington & Quincy 118 and Canada Southern 1 per cent. Beyond the activity in the Kansas & Texas sixes, and the strength in the Iron Mountain fives, there was little feature to the dealings in railroad bonds to-day. There was a firm tone, and the business done was, as a rule, well and widely dis-tributed, the Kansas & Texas sixes contributing \$118,000 to the day's total of \$1,-

cale, and the reaction from the best

prices reached from 4 to 14 per cent.

Owing to the increased interest in railroad shares the unlisted de-

Government and State bonds were dull but firm. TRADING AT CHICAGO.

The Market Somewhat Overloaded-Slight Declines All Around.

CHICAGO, Dec. 20 .- A good speculative business was transacted in wheat, and the feeling was quite strong at times, though weak at others. The situation is generally. no doubt, of a character to produce strength, but there was not enough outside trade to bull the market, and the local crowd was already pretty well loaded up with long wheat, so that they were not buying as heavily as during yesterday, and each attempt to sell caused weakness. A prominent local trader sold quite freely at the higher prices, and bought again on the weak spots. The opening was about 1sc higher than yesterday, then eased off 100 under rather free selling, again recovered. advancing 12c, but free offerings caused a decline of 12c, then ruled steadier, and the closing was 3c lower than yesterday. Outside news generally favored better prices, foreign markets ruling strong and higher. For the five days this week the receipts at Minneapolis aggregated 902,000 bu, against 1,688,000 bu during the corresponding period last week. With the smaller receipts and larger exports clearances during ceipts and larger exports clearances during the past week there ought to be but a small increase in the visible supply, and some parties even estimate a decrease. Corn ruled quiet and inactive the greater part of the session, though toward the close a little more life was manifested. The speculative market opened at yesterday's closing prices, was quiet and inactive for some time, then sold off 4@3sc, ruled steady and closed 4@3sc lower than yesterday. Oats were quiet and easier. There was a moderate inquiry for January and it held steady, but February developed a weaker feeling and declined 4c. May was traded in more freely than the other deliveries, but prices held within the same range as yesterday. In mess pork only a light business was transacted, and the feeling was easy. Prices ruled quiet at 21205c lower, and the market closed quiet. Very little business was transacted in lard, and the feeling was steadier. Trading was almost exclusively in January and May contracts. Prices were advanced about .6212c, and closed steady. Trading in ribs was only moderate, with prices a shade lower. The leading futures ranged as follows:

Options.	Open'g	Highest	Lowest	Closing

DUN & CO.'S WEEKLY REVIEW. Depression Caused by Warm Weather-Sell-

ing American Iron to England. NEW YORK, Dec. 20 .-- R. G. Dun & Co.'s weekly review of trade says: Mild weather causes increasing trouble. Perhaps the coal trade suffers most; many colliers in Pennsylvania have stopped, throwing four thousand men out of employment, and great suffering results. The dry goods and boot and shoe trades are much affected. Collections are "only fair" at many Western points, "hardly satisfactory" at Cleveland, and unpleasantly slow at Milwankee. where much excitement is caused by a heavy failure at Fond du Lac, and small failures have become alarmingly frequent. In some Southern States trade is seriously affected for the time by the operation of farmers' alliances, which culist farmers in co-operative trading, and absorb money which might otherwise go to settle indebtedness with merchants. The results, in some localities, almost paralyze trade. But the general tenor of reports is by no means unfavorable. The volume of trade continthan a year ago. Clearings out side of New York are still about 10 per cent. larger than last year, and railroad earnings

show a handsome increase. The iron business seems for the moment a shade less promising. Recent sales of 60,000 tons of bessemer pig at \$21.50, are supposed to have supplied needs of large concerns, and with additional furnaces turned
to production of this kind of iron, the future of prices is less clear. Rails are quiet, and it is believed that orders have been booked already for 700,000 tons, deliverable next year. The actual output this year, including light rails, is estimated to be 1,450,000 tons, against 1,364,447 last year. Bar-iron has been advanced to 2 cents by the association, but it is quiet; plate and structural iron are firm. As a surprising reversal of the usual order of things, it is noticed that an English order for 10,000 tons of pig-iron has been received with a margin of \$4 per ton deposited, and an English house has asked prices on 65,000 feet of wrought iron pipe, which is said to be

selling at 11 cents net there against 8.63

cents net in this country.

The exports in November appear to have exceeded those of last year by nearly or quite \$30,000,000. But since Dec. 1 the export trade has been a little smaller. Money is still close here at 6 per cent. on call; com-paratively easier at Cleveland; unchanged, but with liberal demand at Chicago: close at Kausas City, but in sufficient supply for legitimate business at Western and Southern points generally. The Treasury has made heavy disbursements, so that it holds \$5,200,000 less cash than a week ago, and foreign exchange has advanced 18 during the week. The general level prices has scarcely changed. The speculative markets have been comparatively dull. Only 8,000,000 bushels of wheat have been sold here, the price advancing about 1 cent, and the change thus far has been less than would naturally follow the close of navigation. Sales of corn have been 5,500,000 bushels, with a fractional decline, but oats are a shade stronger. Pork has dropped 25 cents per barrel, and lard a shade; oil is 12 a cent lower, with sales of only 1,000,000 barrels for the week, and coffee 3sc lower, with sales of 331,000 bags. Though receipts and exports of cotton both fall a little below those of the

corresponding week last year, the price is unchanged. In the stock market dullness and depression have been followed by a The business failures number 342; for the were 311.

TRADE IN GENERAL. Quotations at St. Louis, Philadelphia, Baltimore, Cincinnati and Other Points. ST. LOUIS, Dec. 20.—Flour unchanged. Wheat lower. The market opened 'sc higher, but was rather weak throughout and finally closed '42'se below yesterday. Shipments—Flour, 7,800 brls; wheat, 2,500 bu; corn, 165,000 bu. Sales—Wheat, 15,000 bu; corn, 340,000 bu.

MINNEAPOLIS, Dec. 20.-Local receipts of wheat for the past twenty-four hours were 198 cars, with 20 cars shipped out, against 230 received and 25 shipped yesterday. The demand for each wheat was good and continued active during most of the session. The general range of prices was about the same as yesterday. Some good milling wheat went to outside mills, but the bulk of it was taken by home millers. Elevator people were looking on but doing little, as the prices paid were above their views. Low grades were in rather poor demand. Closing quotations:
No. 1 hard, December, 79c; January, 794c; May,
834c; on track, 80c. No. 1 Northern, December,

Corn-No. 2, cash and December, 334c. Oats-No. 2, eash, 23%c; No. 2 white, cash, 25%c. Receipts —Wheat, 29,900 bu; corn, 6,500 bu; oats, 6,900

BOSTON, Dec. 28.—There has been less business done in wool during the past week, and the otal sales have been only 2,431,000 pounds. In prices there has been no material change, and holders of desirable wool continue firm in their views. Obio and Pennsylvania fleeces are selling at 33@34c for XX and XX and above, 32 @33c for X and X and above, 37 @38c for No. 1. Michigan X fleeces are steady at 30c, but holders refuse to give any more. Combing and delaine fleeces are very firm and in good demand, with sales of No. 1 combing at 39 \$\varphi\$40c; unwashed combing at 27 \$\varphi\$30c, Ohio fine delaine at 35 \$\varphi\$36c, and Michigan fine delaine at 34 \$\varphi\$35c. Territory wools have been selling principally at 58 @60c for fine, 55 @57c for fine medium, and 50 @53c for medium. Texas wools have been duli and in small stock here. California sells to some extent at 50@55c, and Oregon wool in about the same range. Georgia wool, in a small way, has been soid at 28 c, and Maine unwashed at 30c. In pulled wools there have been sales of supers at 40 245c for choice, fair to good supers at 30@37c, and extra at 22@28c. Foreign wool continues firm.

PHILADELPHIA, Dec. 20.-Fleece wool is in improved demand. Hoge-Receipts, 27 car-loads through and 100 car-loads for sale. The market was lower. Mediums and heavy, \$3.70; mixed, Yorkers and pigs, \$3.65@3.70.

INDIANAPOLIS MARKETS.

In Most Departments Trade Is Quiet, with Few Fluctuations in Values. Indianapolis, Dec. 20. There is little new to note in the local

situation. Trade in most departments is very quiet, and no fluctuations in values of importance noted. The produce markets are now the only even moderately active ones. With the near approach of the holidays the demand for poultry is increasing, and so are the receipts, consequently the better demand does not strengthen prices. The last few days eggs have been coming in very freely, and shippers are disposed to further reduce prices, and the same can be said of butter. Choice apples are meeting with fair sale, but are hardly as firm as a week ago. A better grade of oranges are coming on to the market, and they are meeting with good sale. Other fruits and vegetables are moving out slowly and prices rule easy. The provision market is very quiet at unchanged prices, and a quiet trade is looked for the remaining days of the year in nearly all departments. Most of the wholesale men are turning their attention to closing up the affairs of the year as promptly as practicable, and, almost without exception, express themselves as quite wel satisfied with the volume of business during the year now closing and its results in a financial way.

A lifeless market about covers the situation. But few grain men are taking the trouble to come on 'Change, and those who do come bid with indifference. Track bids, to-day, ruled as

Wheat—No. 2 red, 77½ 77%;; No. 3 red, 72 75c; rejected, 65c for poor to 70c for choice.
